

Course Unit	Research Methodologies	Field of study	Social Sciences
Master in	Tourism Marketing	School	School of Public Management, Communication and Tourism
Academic Year	2023/2024	Year of study	1
Type	Semestral	Semester	1
Workload (hours)	162	Contact hours	T - , TP 45, PL - , TC - , S - , E - , OT 6, O -
		Level	2-1
		ECTS credits	6.0
		Code	5048-586-1103-00-23

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) Ana Sofia Montenegro Goncalves Coelho

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. Know the characteristics and properties of research methodology;
2. Develop research knowledge, abilities and aptitudes that allow the definition and development of scientific assignments;
3. Develop a research project, openly identifying the purpose and justifying the hypothesis to test;
4. Collect, organize and statistically manipulate the research data;
5. Know and apply different techniques of qualitative data analysis;
6. Validate qualitative studies;
7. Know and use a statistic software;
8. Analysis and discussion of the results to obtain the main conclusions;

Prerequisites

Not applicable

Course contents

1. Introduction to scientific research; 2. Research design ; 3. Qualitative research; 4. Quantitative research.

Course contents (extended version)

1. Introduction to scientific research
 - Scientific research process and phases;
 - Proposal of the research problem;
 - Definition of objectives, research question and hypothesis;
 - Bibliographic sources and references;
 - Ethical aspects.
2. Research design
 - Research design components;
 - Paradigms: post positivism, constructivism, participatory and pragmatism;
 - Research methodologies: qualitative, quantitative, mixed methods;
 - Research strategies.
3. Qualitative research
 - Qualitative research approaches;
 - Data collection techniques: interviews, focus groups, observation methods and document study;
 - Content analysis;
 - Qualitative studies validation;
 - Results presentation and interpretation.
4. Quantitative research
 - Sampling procedures and data collection;
 - Questionnaire analysis and variable definition;
 - Prepare, transcript and transform the data in order to create a database.
 - Data analysis with statistical software;
 - Results presentation and interpretation.

Teaching and learning methods

The course unit will be taught through the theoretical contents exhibition (expository method), followed by the analysis and resolution of case studies (demonstrative method). To promote greater students involvement in the acquisition of knowledge and skills case studies will be distributed in order to proceed to its resolution and analysis. Statistical software will be used.

Assessment methods

1. Alternative 1 - (Regular, Student Worker) (Final)
 - Practical Work - 60% (Develop an Individual Research Project)
 - Practical Work - 20% (Reading sheet for a scientific article)
 - Practical Work - 20% (Other practical work developed in class)
2. Alternative 2 - (Regular, Student Worker) (Final, Supplementary, Special)
 - Final Written Exam - 100%
3. Erasmus students (incoming) - (Regular, Student Worker) (Final, Supplementary, Special)
 - Practical Work - 100%

Language of instruction

Portuguese, with additional English support for foreign students.
