

Course Unit	-	Field of study	-
Master in	Pre-school and Primary School Teacher Education	School	School of Education
Academic Year	2023/2024	Year of study	2
Type	Annual	Semester	-
Level	2-2	ECTS credits	4.0
Code	5050-765-2002-00-23		
Workload (hours)	108	Contact hours	T - , TP 28, PL - , TC - , S - , E - , OT 8, O -

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) Elza da Conceição Mesquita, Ilda da Purificação Freire Ribeiro, Manuel Luís Pinto Castanheira

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. Analyse the adequacy of the intervention and research project on supervised teaching practice.
2. Implement the intervention and research project, contextualizing and deepening the problem to be studied.
3. Resort to educational research methodologies for better analysis and understanding of the teaching and learning practices.
4. Use techniques and instruments of observation, registration, documentation and evaluation of the teaching and learning process.
5. Substantiate teaching and learning experiences in a reflective and investigative perspective on the educational practice.
6. Mobilize scientific, pedagogical and didactical knowledge to support a reflective and investigative professional performance and the improvement of the students learning.

Prerequisites

Before the course unit the learner is expected to be able to:

1. Relate and use concepts related to science education.
2. Relate and use concepts and procedures related to disciplinary knowledges.

Course contents

1. Context of the final internship report(s).
2. From the project to the final internship report.
3. Planning and writing of the final internship report(s).

Course contents (extended version)

1. Context of the final internship report(s)
 - Educational research, reflection and research on practice
 - Teaching and learning issues
 - Collecting and analysing data in the context
2. From the project to the final internship report
 - Presentation of the intervention and research project(s)
 - Deepening of the problem to be studied.
3. Planning and writing of the final internship report(s)
 - Development of theoretical and methodological frameworks
 - Selection of teaching and learning experiences taking into account the specificities of each project
 - Processing and analysis of data collected in supervised teaching practice
