Teaching and learning methods

Cooperative work among students, with research oriented on the subjects under study. "Practice-based learning" strategies will be adopted, in particular by carrying out intellectual property, market and R&D strategies needed for the implementation of new products and processes in the area of ICE technologies. Visits to the IPB research centers will be promoted.

Assessment methods

- Continuous Assessment - (Regular, Student Worker) (Final, Supplementary, Special)
 - Practical Work - 30% (Practical work related with the main contents of the curricular unit.)
 - Projects - 30% (Preparing projects and formalizing applications.)
 - Development Topics - 40% (Team working sessions with a discussion of topics on the development and management of the company.)

Language of instruction

1. Portuguese
2. English
