

Course Unit	Water Sports	Field of study	Sport Sciences
Bachelor in	Sports - Minor in Sports Management	School	School of Education
Academic Year	2023/2024	Year of study	1
Type	Semestral	Semester	2
Workload (hours)	108	Contact hours	T - - TP 5 PL 40 TC - S - E - OT - O -
Level	1-1	ECTS credits	4.0
Code	9563-624-1203-00-23		

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) António Miguel de Barros Monteiro

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. Dominate basic and essential concepts in the different specialties of nautical sports
2. Show ability to analyze the basic concepts of meteorology and its effects on nautical activities in confined waters
3. Present methodological approach to Sailing, Rowing, WindSurfing and Kayaking.
4. Demonstrate ability to plan and execute projects and activities within the Nautical Sports

Prerequisites

Before the course unit the learner is expected to be able to:
Not applicable.

Course contents

Nautical Sports (NS); Environment and its meteorological and water features; Materials and equipment for NS practice; Rules and regulations for each different modality of NS; Basic driving and safety techniques of NS (Kayaking, Rowing, Windsurfing and Sailing); Organization, planning and realization of NS.

Course contents (extended version)

1. Nautical Sports (NS)
 - Environment
 - General meteorological characteristics
 - Water plans characteristics
 - Materials and equipment for the practice of NS
 - Rules and regulations for each different NS
 - Basic DN driving and safety techniques (Kayaking, Rowing, Windsurfing and Sailing)
2. Kayaking
 - Loading and unloading techniques
 - Kayak depletion processes
 - Basic Techniques
 - Plying technique
 - Lifesaving techniques
3. Rowing
 - Vessel mounting
 - Loading and unloading techniques
 - Rowing technique
 - Lifesaving techniques
4. Sailing
 - Characteristics of tides, currents and winds
 - Fundamental nodes
 - Techniques for equipping a sailboat
 - Types of navigation
 - Basic maneuvers
5. Windsurfing
 - Types of navigation
 - Departures
 - Techniques of change of board
 - How to use the harness
 - Planar techniques
