Teaching and learning methods

The ceramic course unit II aims to address all issues related to cooking, their respective physical and chemical reactions. The theoretical component at the historical level is given after enunciating the safety standards to be followed in this technique. At the practical level the student will know the various techniques of pictorial decoration from the Greeks to the Arabs.

Assessment methods

1. CONTINUOUS EVALUATION - (Regular, Student Worker) (Final)
 - Reports and Guides - 30%
 - Projects - 70%
2. EVALUATION OF EXAMINATION - (Regular, Student Worker) (Supplementary, Special)
 - Final Written Exam - 40%
 - Projects - 60% (nº 4 art. 7 of the Frequency and Evaluation Regulations - Classification in Continuous Assessment)

Language of instruction

Portuguese, with additional English support for foreign students.
