Teaching and learning methods

Theoretical knowledge is accomplished by expositive method, using: blackboard, transparencies or data-show. At two ours classes, that aren't laboratorial, lessons are performed, in which, students learn strategies to solve exercises, and, they must participate on discussion about the best way how to get a solution.

Assessment methods

1. With mid-term evaluation - (Regular, Student Worker) (Final)
 - Intermediate Written Test - 50% (Corresponds to 3. 0 ECTS)
 - Final Written Exam - 50% (Corresponds to 3. 0 ECTS)
2. Evaluation in final exam - (Regular, Student Worker) (Final, Supplementary, Special)
 - Final Written Exam - 100% (Corresponds to 6. 0 ECTS)
