Recommended reading

Bibliografia específica deve ser adequada a cada situação de dissertação/trabalho de projeto ou estágio.

Teaching and learning methods

The teaching methodology will be carried out in conjunction with the curricular unit of Orientation Seminar. In this unit, the advisor must always take into account the specific needs of each student and their relation to the nature of the work to be developed, with a view to its completion and taking into account that in this curricular unit the work is essentially autonomous.

Assessment methods

- Public defense work - (Regular, Student Worker) (Final)
- Development Topics - 80% (Analysis of the work carried out by a jury.)
- Presentations - 20% (Quality held presentation.)

Language of instruction

Portuguese, with additional English support for foreign students.
