

Course Unit	Land Management and Territorial Planning		Field of study	-	
Master in	Environmental Education		School	School of Education	
Academic Year	2023/2024	Year of study	1	Level	2-1
Type	Semestral	Semester	1	ECTS credits	5.0
			Code	6083-766-1105-00-23	
Workload (hours)	135	Contact hours	T -	TP 27	PL -
			TC -	S -	E -
			OT 18	O 45	

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) Orlando Miguel Pina Gonçalves Martins Gama

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. Understand the conceptual framework of land use and planning
2. Understand and discuss the contemporary problems of spatial planning and the guidelines for intervention, resulting from the European Union Regional Policy and the European Territorial Strategy
3. Know the different territorial specificities and their organization
4. Recognize land planning and management instruments as essential tools for sustainable development, structuring critical thinking in relation to these instruments
5. Understand and analyze the forms of land occupation and use
6. Understand the structure and planning process as an instrument of spatial planning
7. Deepen the concept of multilevel governance of territories, within a framework of challenges and territorial conflicts

Prerequisites

Not applicable

Course contents

1. Course presentation - Introduction to the Concepts of Spatial Planning and Spatial Planning 2. Land use and planning: conceptual framework 3. Basic concepts in spatial planning 4. Territorial specificities and ordering 5. Legal framework and instruments for land use planning for sustainable development 6. Territorial analysis 7. Planning as an instrument of territorial organization 8. Multilevel territorial governance

Course contents (extended version)
