

Course Unit	Microeconomics			Field of study	Economics		
Bachelor in	International Business Management			School	School of Technology and Management		
Academic Year	2023/2024	Year of study	1	Level	1-1	ECTS credits 6.0	
Туре	Semestral	Semester	1	Code	8487-711-1104-00-23		
Workload (hours)	162	Contact hours			C - S	E - OT 10 O Fieldwork; S - Seminar, E - Placement, OT - Tutorial; O - Other	
Name(s) of lecturer(s) Larysa Viktorivna Savosh, Nuno Filipe Lopes Moutinho							

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

- 1. Understand the behaviour of the supply and demand of goods and services in the markets and the implications of their changes in the equilibrium that is established
- Understand the phenomena related to the consumers choice, the budgetary restriction and the consumption utility

 Understand the phenomena related to the enterprises choice and the efficient use of the productive process (profits maximisation and costs minimisation)

 Understand the role and the implications of the State intervention in the different markets

 Understand the different business strategies according to different market environments; perfect competition, monopoly and imperfect competition

- 6. Select, analyse and understand economic information, collected from the countless available sources, connected with the topics taught

Prerequisites

Before the course unit the learner is expected to be able to: Apply basic quantitative methods
