# Teaching and learning methods

The learning methodology is based on an intensive work using legislation in the classroom. After a brief theoretical presentation about the concepts, the classifications and how topics are organized in the law, the class develops through practical cases, which present a variable complexity degree, and the students are asked to find the answers in the legislation.

## Assessment methods

- Continuous Evaluation (Regular, Student Worker) (Final, Supplementary, Special)
   Practical Work 35% (Presentation in class, with a maximum duration of 15 minutes.)
   Final Written Exam 65%
- 2. Final Exam (Regular, Student Worker) (Special)
