At the end of the course unit the learner is expected to be able to:

1. Articulate the curriculum content addressed through the bachelor with new topics relevant to his professional activity;
2. Have a critical attitude, able to contribute to a debate;
3. Understand new concepts and synthesize them.

Prerequisites

Not applicable

Course contents

The syllabus of this course will be set in each academic year. Will be discussed topics relevant to the professional activity of students, complementary to those covered in the remaining curricular units, allowing to strengthen their professional profile, both in terms of specific skills and in general skills.

Course contents (extended version)

- The syllabus of this course will be set in each school year.

Recommended reading

Teaching and learning methods

This course consists of a set of sessions which may include lectures, discussions, short courses and study visits conducted by professors and/or other specialists in the subjects addressed. Will be promoted discussion, reflection and application of knowledge through the implementation of reports, practical assignment and research.

Assessment methods

- Continuous Evaluation - (Regular, Student Worker) (Final, Supplementary, Special)
- Practical Work - 100% (Final grade is obtained by weighting the individual effort assigned to each item of the seminar.)

Language of instruction

Portuguese, with additional English support for foreign students.
