5. Advise the user to choose the most appropriate treatment for the various areas of health and wellness
6. Apply the different therapies in practical sessions in a therapeutic and wellness contexts

Prerequisites

Not applicable

Course contents

Phytotherapy. Thalassotherapy. Pelotherapy. Thermal-based naturopathy. Aromatherapy.

Course contents (extended version)

1. Phytotherapy
 - Concepts and guidelines
 - Main applications and uses of medicinal plants
 - Medicinal plants: interaction with food and drugs
 - Anti-aging and antioxidant properties
 - Thermal phytotherapy and phytocosmetics: types and applications
2. Thalassotherapy
 - Sea water: properties
 - Fundamentals, characteristics, and applications of thalassotherapy
 - Indications and contraindications
 - Use of sand and algae
3. Pelotherapy
 - Peloids and their properties
 - Types, composition, and preparation
 - Application, functions, and contraindications
4. Thermal-based naturopathy
 - Concepts and notions
 - Indications, contraindications, and therapeutic application
5. Aromatherapy
 - Properties of essential oils
 - Application, functions, and contraindications
