

Course Unit	Sexual and Reproductive Health Nursing	Field of study	Nursing
Master in	Maternal Health Nursing and Obstetric	School	School of Health
Academic Year	2023/2024	Year of study	1
Type	Semestral	Semester	1
Workload (hours)	162	Contact hours	T 16 TP 36 PL 4 TC - S - E - OT 10 O -
		Level	2-1
		Code	5065-769-1102-00-23
		ECTS credits	6.0

T - Lectures; TP - Lectures and problem-solving; PL - Problem-solving, project or laboratory; TC - Fieldwork; S - Seminar; E - Placement; OT - Tutorial; O - Other

Name(s) of lecturer(s) Ana Fernanda Ribeiro Azevedo, Diana Manuela Santos Leite

Learning outcomes and competences

At the end of the course unit the learner is expected to be able to:

1. Differentiate concepts and dimensions in sexual and reproductive health.
2. Analyze sex and gender differences in health and disease.
3. Deepen knowledge about the anatomy and pathophysiology of sexual function and human reproduction.
4. Identify the potential for sexual, genetic and pre-conception risk.
5. Analyze options for medically assisted procreation.
6. Integrate knowledge to design, plan, coordinate, supervise, implement and evaluate sexual and reproductive health programs, projects and interventions.
7. Analyze situations/cases/problems critically and based on scientific evidence.

Prerequisites

Before the course unit the learner is expected to be able to:
Not applicable

Course contents

Gender and citizenship in health Conjugality and parenting Women as promoters of health and human development Sexual and reproductive rights Issues associated with sexuality and gender Counseling and referral in sexual and reproductive health Fertility, conception and reproduction Genetic and pre-conception risk Contraception and fertility control methods Family planning consultation Complementary diagnostic tests SRH education theories and strategies 21. Screening programs in SRH

Course contents (extended version)

1. Gender and citizenship in health
2. Construction of femininities and masculinities
3. Conjugality and parenting
4. Women as promoters of health and human development
5. Sex and gender differences in health and disease
