

Course Unit	Research Methods in Dietetics and Nutrition			Field of study	Dietetics and Nutrition		
Bachelor in	Dietetics and Nutrition			School	School of Health		
Academic Year	2023/2024	Year of study	3	Level	1-3	ECTS credits	5.0
Туре	Semestral	Semester	1	Code	8149-807-3104-00-23		
Workload (hours)	135	Contact hours			c - s -	E - OT	15 0 -
			T - Lectures; TP - Lectures a	nd problem-solving; PL - Problem-	solving, project or laboratory; TC	- Fieldwork; S - Seminar; E - Place	ment; OT - Tutorial; O - Othe

Name(s) of lecturer(s)

Ana Maria Geraldes Rodrigues Pereira, António José Gonçalves Fernandes, Juliana Almeida de Souza

## Learning outcomes and competences

- At the end of the course unit the learner is expected to be able to: 1. Recognize the research process in health: the epistemologics, methodological, technical and ethical aspects, in articulation theoretical/empirical field, in Dietetic and Nutrition field.

- Learn to Elaborate a researche project in Dietetic and Nutrition Analyze and perform a critical appreciation of Health research and in this health area Identify the characteristics of the methodological rationale Know the inherent elements to the instrumental and methodological plan of a research
- 6. Plan all steps of the Research Planning, Execution and Publication

#### Prerequisites

Before the course unit the learner is expected to be able to: Not applicable

### Course contents

Introduction to research with practical application in the field of dietetics and nutrition

## Course contents (extended version)

- Introductory questions about the scientific object and scientific research

   Scientific methodology: science vs pseudoscience
   Research process phases: conceptual, methodological, empirical, interpretation and dissemination

- Research process phases: conceptual, methodological, empirical, interpretation
   Studies design
   Management of bibliographic information
   The phases of quantitative research
   The choice of the theme and the preliminary question
   Literature review: narrative, scope, systematic, and metaanalysis
   Study problem, research question, and aims definition
   Definition of the study design regarding nature, method and analysis
   Definition of population, sample, sample size, and sampling technique
   Definition of data collection instrument, variables, and their operationalization
   Study hypothesis and hypothesis test (statistics) definition
  - Study hypothesis and hypothesis test (statistics) definition
     Research ethical
- Research refricas
   Specific aspect of dietetics and nutrition in research
   Methods to determine dietary intake
   Methods investigating food-related behaviour
   Methods for assessing nutritional status and body composition
   Estatistica aplicada à dietética e nutrição
   Measurement Scales: nominal, ordinal and numerical Contral tondenaviord

- Measurement Scales: nominal, ordinal and numerical
  Central tendency and dispersion measures
  Summarizing data in tables and graphs
  Proportion tests Chi-square, Fisher, McNemar, Odds Ratio and Relative Risk
  Parametric tests: independent and paired samples: t-Student and One-way ANOVA
  Non-parametric tests: Mann-Whitney-Wilcoxon U and KrusKal-Wallis
  Population correlation analysis: Pearson and Spearman tests
  Regression Models

# Teaching and learning methods

Teaching methodologies include TP classes, with analysis of texts, articles and scenarios, exercise execution and group discussion; S classes, with presentation of papers or critical analysis of scientific articles with debate, in the form of JournalClub; ot classes, for individualised support of the development of critical analyses and research project, in a process of co-creation.

#### Assessment methods

- Final (Regular, Student Worker) (Final)

   Projects 50% (Research Project in the field of Dietetics and Nutrition, developed in cocreation processo)

- Projects 50% (Research Project in the held of Dieterits and viscous and vis

# Language of instruction Portuguese, with additional English support for foreign students.
